

CONSTRUCTION ZONE

Clover Park School District

December 2016

Construction Zone is a monthly update on the progress of voter-approved school construction projects and school construction projects on Joint Base Lewis-McChord. Updates are also posted on the district's school construction website at <http://cloverpark.k12.wa.us/construction/default>.

Facilities Advisory Committee

The next meeting of the district's Facilities Advisory Committee (FAC) is Wednesday, Dec. 14. Meeting minutes from previous meetings are posted on the district website under Announcements and Facilities Advisory Committee Updates.

2015 JBLM SCHOOL CONSTRUCTION PROJECT

Evergreen Elementary School

Project Review	SIZE 99,886 SF	CAPACITY 761 Students	BUDGET \$39.4 Million	ARCHITECT BCRA	CONTRACTOR Skanska
-----------------------	--------------------------	---------------------------------	---------------------------------	--------------------------	------------------------------

The school is now ready for the first phase of moving curriculum and second semester materials from the old Evergreen Elementary School. The remainder of the move will occur during the holiday break, at which point teachers will set up their classrooms to begin instruction in the new school on Tuesday, Jan. 3.

The contractor is finishing up corrections from the "punch list," final commissioning for all building systems and last minute touch-ups.

New furniture has been installed and district information technology services staff is installing computers and telephones for staff and teachers.

The welcome sign outside the administration office of Evergreen Elementary School.

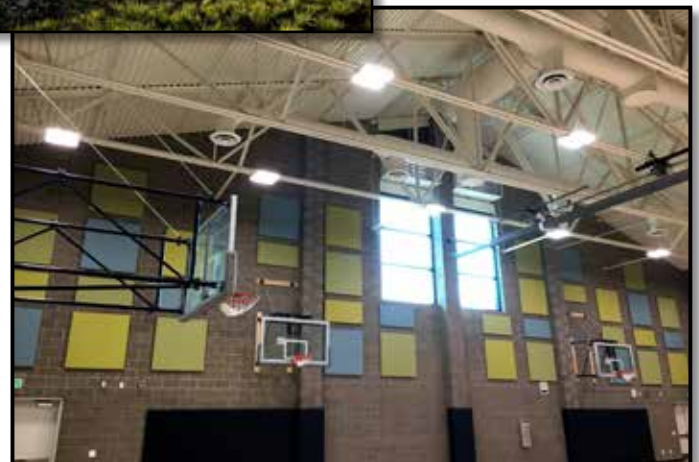

Furniture has been added to classrooms at Evergreen Elementary School.

Landscaping is complete at Evergreen Elementary School.

Colorful art panels enhance the hallways at Evergreen Elementary School.

Sound panels add a colorful touch to the gymnasium at Evergreen Elementary School.
